Population Protection 2030 = Climate Changes + Society 4.0

- The impact of climate changes on population protection
- Emergency aid and population protection
- Operations centers as a critical infrastructure element
- Medical rescue work in population protection
- Crisis management in the company
- Education in population protection

Call for Paper

Abstracts will be published in the Conference Proceedings. The Conference Proceedings as well as presentations of papers will be at the participants' disposal. The presentations will be available for download on the SPBI website after the Conference. Send extended abstract of the contribution by email to the Conference Secretariat by 20 December 2019. The application form for the contribution, including approval for the contribution and presentation publishing, can be found on www.spbi.cz.

We offer to authors, who will be interested in publishing the full text of the paper, the possibility of being published in the Transactions of the VSB - Technical University of Ostrava, Safety Engineering Series (TSES). The Editorial Board will consider the possibility of publication and will send the author a notification.
